Version Notes, ESS11 Appendix A3 Alcohol Consumption

ESS11 edition 3.0 (published 02.06.2025):

Changes from previous edition:

Additional countries:

Bulgaria, Israel, Latvia, Montenegro.

ESS11 edition 2.0 (published 21.11.2024):

Changes from previous edition:

Additional countries:

Belgium, Cyprus, France, Greece, Iceland, Italy, Poland, Portugal, Serbia, Spain, Sweden.

ESS11 edition 1.0 (published 20.06.2024):

Countries included:

Austria, Croatia, Finland, Germany, Hungary, Ireland, Lithuania, Netherlands, Norway, Slovakia, Slovenia, Switzerland and the United Kingdom.

General information on the ESS alcohol measure

The ESS Round 11 questionnaire included a set of questions on alcohol consumption behaviour as part of the module on 'Social inequalities in health and their determinants'. The aim was to obtain measures of alcohol consumption that were comparable across countries and easy for respondents to answer.

All countries asked the same questions, but country-specific response categories were allowed to account for existing variability of alcoholic drinks across countries. The approach involved National Coordinators designing country-specific categories to define different quantities of alcohol typically consumed in the country and for images that illustrated these alcoholic drinks. The categories and illustrations were discussed with a central team to facilitate exchange of knowledge across countries and the posterior harmonisation of responses into total grams of alcohol. The guidelines followed by National Coordinators to select their categories and produce their illustrations can be found in pages 128 through 147.

During fieldwork, interviewers were to record the number of country-specific drinks that a respondent had consumed the last time they drank alcohol. Given that these drinks differed across countries, a system was designed in advance to compute harmonised variables that could be compared across countries.

This harmonisation system was designed and documented in tables describing type of drink, quantity in millilitres, the average alcohol volume percentage and the total number of grams of alcohol in each of those drinks. By multiplying the number of drinks a respondent consumed by the number of grams in the drink, and summing across all drink types, one can obtain the total number of grams respondents had consumed. This harmonised measure can be compared across countries.

This document compiles the tables describing the computation of the harmonised variables and the show cards presented to respondents in each country. After fieldwork, these tables were used to transform country specific variables into harmonised variables "alcwkdy" (corresponding to question D7) and "alcwknd" (corresponding to question D8); these harmonised variables show the total amount of alcohol in grams that the respondent reported.

Notes:

1. Some categories were available to interviewers but not shown to respondents on the cards. We call these "hidden categories" and, where used, they appear at the bottom of the tables in italics.

Austria – Calculations of grams for variables ALCWKDY and ALCWKND

Variables	Name of drink (in majority language)	English rendition of drink	Type of drink(s): wine, beer, cider, spirits, other	Description (e.g., glass, can, bottle...) in English if possible	Quantity (mls)	Average %vol of drink in country	Average grams of alcohol	Grams of alcohol (Formula: 0.8*F*G/100)
D7_1AT / D8_1AT	Großes Bier (0,5l; Krügel)	large beer	beer	glass	500	5	20,0	**20,0**
D7_2AT / D8_2AT	Bier (0,3l; Seidl)	small beer	beer	glass	300	5	12,0	**12,0**
D7_3AT / D8_3AT	Glas weiss-oder rotwein (1/8l)	small glass of wine	wine	glass	125	12	12,0	**12,0**
D7_4AT / D8_4AT	Flasche Wein (0,75l)	Bottle of Wine	wine	bottle	750	12	72,0	**72,0**
D7_5AT / D8_5AT	Schnaps, shot (Whisky, Obstler, Grappa)	shot	spirits	glass	20	40	6,4	**6,4**
D7_6AT / D8_6AT	Doppelter Schnaps (Whisky, Obstler, Grappa)	double measure of spirits	spirits	glass	40	40	12,8	**12,8**
D7_7AT / D8_7AT	Longdrink, Cocktail	cocktail	spirits	glass	355	5,5	15,6	**15,6**
D7_8AT / D8_8AT	Champagner / Sekt	glass of sparkling wine	wine	glass	175	12	16,8	**16,8**
D7_9AT / D8_9AT	Alcopop	Alcopop	spirits	bottle	275	4,5	9,9	**9,9**
D7_10AT / D8_10AT	Most (0,5l)	Cider	Cider	glass	500	6	24,0	**24,0**
D7_11AT / D8_11AT	Aperitif (Martini, Campari, Sherry, Portwein)	aperitive (Martini, Campari, Sherry, Port)	spirit, fortified wine	glass	40	22,5	7,2	**7,2**
D7_12AT / D8_12AT	Likör (Amaretto, Baileys)	Liquer (Amaretto, Baileys)	spirit	glass	40	20	6,4	**6,4**

Bulgaria – Calculations of grams for variables ALCWKDY and ALCWKND

Drinks-to-grams conversion table

Variables[1]	Name of drink (in majority language)[2]	English rendition of drink	Type of drink(s): wine, beer, cider, spirits, other	Description (e.g., glass, can, bottle...) in English if possible	Quantity (mls)	Average %vol of drink in country	Average grams of alcohol
D7_1BG / D8_1BG	Голяма бира	Large beer (500 ml)	beer	a "standard" (or "large") bottle or mug of beer	500	5	20,0
D7_2BG / D8_2BG	Малка бира	Small beer (330 ml)	beer	a "small" bottle or glass of beer	330	5	13,2
D7_3BG / D8_3BG	Голяма чаша вино (250 мл)	A large glass of wine (250 ml)	wine	a typical glass of wine served at a bar, restaurant or consumed at home	250	13,5	27,0
D7_4BG / D8_4BG	Бутилка вино (750 мл)	Bottle of wine (750 ml)	wine	a bottle of wine	750	13,5	81,0
D7_5BG / D8_5BG	Малка ракия, уиски, водка или друг твърд алкохол (напр. мастика, узо и т.н.)	Small glass of brandy, whiskey, vodka or other spirits (e.g. mastika, ouzo, etc.)	spirits	there are either "small" servings of spirits (around 50 ml.) or "large" ones - 100 ml.	50	43	17,2
D7_6BG / D8_6BG	Голяма ракия, уиски, водка или друг твърд алкохол (напр. мастика, узо и т.н.)	Large glass of brandy, whiskey, vodka or other spirits (e.g. mastika, ouzo, etc.)	spirits	there are either "small" servings of spirits (around 50 ml.) or "large" ones - 100 ml.	100	43	34,4
D7_7BG / D8_7BG	Коктейл, стандартна чаша (250 мл)	Cocktail, standard glass (250 ml.)	spirits	There is a great variety of cocktails served at bars or consumed at home. The % of alcohol in the drink is an estimation based on consultations with bar tenders	250	10	20,0
D7_8BG / D8_8BG	Шотове	Shot glass	spirits	"shots" or small servings of spirits or cocktails in shot glasses are extremely popular in bars and parties in Bulgaria. Usually they contain more alcohol per 100 ml. than regular cocktails	30	25	6,0
D7_9BG / D8_9BG	Сайдер	Cider	Cider	Cider is not very popular in Bulgaria, but it could still be added	330	4	10,6
D7_10BG / D8_10BG	Малка чаша вино (125 мл)	A small glass of wine (125 ml)	wine	a small glass of wine served at higher-end restaurants or wineries	125	13,5	13,5
D7_11BG / D8_11BG							
D7_12BG / D8_12BG							
D7_13BG / D8_13BG3							
D7_14BG / D8_14BG3

1. Μεγάλη μπουκάλα **μπίρα** [630ml]

2. Μεγάλο τενεκεδάκι ή μεγάλο ποτήρι ή πάιντ **μπίρα** [500ml]

3. Μικρό ποτήρι ή μικρή μπουκάλα ή μικρό τενεκεδάκι **μπίρα** [330ml]

4. Μπουκάλι **κρασί** [750ml]

5. Ποτήρι **κρασί** [150ml]

6. Μικρή μπουκάλα **ζιβανία** ή **ούζο** ή **τσίπουρο** [200ml]

7. Σφηνάκι ή μικρό ποτηράκι **ζιβανία** ή **ούζο** ή **τσίπουρο** [30ml]

8. Μονή δόση ή σφηνάκι άλλου ποτού **υψηλής περιεκτικότητας** σε αλκοόλ (π.χ. ουίσκι, τζιν, βότκα, τεκίλα) [30ml]

9. Διπλή δόση άλλου ποτού **υψηλής περιεκτικότητας** σε αλκοόλ (π.χ. ουίσκι, τζιν, βότκα, τεκίλα) [60ml]

10. Κοκτέιλ (π.χ. τζιν με τόνικ, ρούμι με κόλα, βότκα πορτοκάλι, μοχίτο)

11. Συσκευασμένα αλκοολούχα **ποτά με αναψυκτικό** (π.χ. Bacardi Breezer, Smirnoff Ice) [275ml]

12. Μικρό ποτηράκι **λικέρ** (π.χ. Μαστίχα, Καλούα, Γραν Μαρνιέ) [30ml]

Παράδειγμα 1.
3 ½ μεγάλα ποτήρια **μπίρα**

Παράδειγμα 2.
4 ½ ποτήρια **κρασί**

Παράδειγμα 3.
6 σφηνάκια **ζιβανία** ή **ούζο** ή **τσίπουρο**

Παράδειγμα 4.
6 μονές δόσεις ποτού **υψηλής περιεκτικότητας** σε αλκοόλ (π.χ. ουίσκι, τζιν, βότκα, τεκίλα)

Παράδειγμα 5.
2 σφηνάκια **ζιβανία** ή **ούζο** ή **τσίπουρο** και **3** ποτήρια **κρασί**

Παράδειγμα 6.
2 σφηνάκια **ζιβανία** ή **ούζο** ή **τσίπουρο** και **3 κοκτέιλ**

Παράδειγμα 1.
2 ½ μεγάλα ποτήρια **μπίρας**

Παράδειγμα 2.
3 ½ ποτήρια **κρασί**

Παράδειγμα 3.
5 σφηνάκια **ζιβανία** ή **ούζο** ή **τσίπουρο**

Παράδειγμα 4.
5 μονές δόσεις ποτού **υψηλής περιεκτικότητας** σε αλκοόλ (π.χ. ουίσκι, τζιν, βότκα, τεκίλα)

Παράδειγμα 5.
2 σφηνάκια **ζιβανία** ή **ούζο** ή **τσίπουρο** και **2** ποτήρια **κρασί**

Παράδειγμα 6.
2 σφηνάκια **ζιβανία** ή **ούζο** ή **τσίπουρο** και **2 κοκτέιλ**

Finland – Calculations of grams for variables ALCWKDY and ALCWKND

Variables	Name of drink (in majority language)	English rendition of drink	Type of drink(s): wine, beer, cider, spirits, other	Description (e.g., glass, can, bottle...) in English if possible	Quantity (mls)	Average %vol of drink in country	Average grams of alcohol	Grams of alcohol formula (0.8*F*G)
D7_1FI / D8_1FI	Pullo tai tölkki (0,33 l) keskivahvaa olutta, keskivahvaa siideriä tai keskivahvaa lonkeroa (n.4,5%)	Lower strength beer/lower strength cider/lower strength alcopop	Beer, cider, alcopop	Can or bottle	330	4,5	12	11,9
D7_2FI / D8_2FI	Iso (0,5 l) keskivahva olut, keskivahva siideri tai keskivahva lonkero (n. 4,5%)	Lower strength beer/lower strength cider/lower strength alcopop	Beer, cider, alcopop	Glass	500	4,5	18	18,0
D7_3FI / D8_3FI	Pullo tai tölkki (0,33 l) vahvaa olutta, vahvaa siideriä tai vahvaa lonkeroa (n. 5,5%)	Strong beer/strong cider/strong alcopop	Beer, cider, alcopop	Can or bottle	330	5,5	14	14,5
D7_4FI / D8_4FI	Iso (0,5 l) vahva olut, vahva siideri tai vahva lonkero (n. 5,5 %)	Strong beer/strong cider/strong alcopop	Beer, cider, alcopop, spirit	Glass	500	5,5	22	22,0
D7_5FI / D8_5FI	Lasillinen (12 cl) puna-,valko- tai kuohuviiniä (12-14 %)	Red, white or sparkling wine	Wine	Glass	120	12,7	12	12,2
D7_6FI / D8_6FI	Pullollinen (750 cl) puna-, valkotai kuohuviiniä (12-14 %)	Red, white or sparkling wine	Wine	Bottle	750	12,7	75	76,2
D7_7FI / D8_7FI	Lasillilnen (8 cl) väkevää viiniä (15-22 %)	Strong wine	Fortified wine	Glass	80	19,0	12	12,2
D7_8FI / D8_8FI	Ravintolaannos (4 cl) väkeviä alkoholijuomia (yli 22 %)	Strong liquor	Spirit	Glass	40	38,0	12	12,2
D7_13FI / D8_13FI	Vahva alkoholi	Bottle of hard liquor	Spirit	Bottle	500	38,0	152	152,0
D7_14FI / D8_14FI	Puna-, valko- tai kuohuviini	Red, white or sparkling wine	Wine	Bottle	375	12,7	38	38,1

Variables	Name of drink in Swedish	Name of drink in [Enter languagel]	Name of drink in [Enter languagel]
D7_1FI / D8_1FI	En flaska eller burk (0,33 l) medelstarkt öl, medelstark cider eller medelstark long drink (ca 4,5%)		
D7_2FI / D8_2FI	En stor (0,5 l) medelstark nöl, medelstark cider eller medelstark long drink (ca 4,5 %)		
D7_3FI / D8_3FI	En flaska eller burk (0,33l) stark öl, stark cider eller stark long drink (ca 5,5%)		
D7_4FI / D8_4FI	En stor (0,5 l) stark öl, stark cider eller stark long drink (ca 5,5%)		
D7_5FI / D8_5FI	Ett glas (12 cl) rött, vitt eller mousserande vin (12–14%)		
D7_6FI / D8_6FI	En flaska (750 cl) rött, vitt eller mousserande vin (12–14%)		
D7_7FI / D8_7FI	Ett glas (8 cl) starkvin (15–22%)		
D7_8FI / D8_8FI	Ett standardglas (4 cl) starka alkoholdrycker (över 22%)		
D7_13FI / D8_13FI	Starka alkoholdrycker (50cl)		
D7_14FI / D8_14FI	Rött, vitt eller mousserande vin (37,5 cl)

Hungary – Calculations of grams for variables ALCWKDY and ALCWKND

Variables	Name of drink (in majority language)	English rendition of drink	Type of drink(s): wine, beer, cider, spirits, other	Description (e.g., glass, can, bottle...) in English if possible	Quantity (mls)	Average %vol of drink in country	Average grams of alcohol
D7_1HU / D8_1HU	Egy korsó sör	One Mug of Beer	beer	A half a liter beer. Generally it is understood as lager beer, but Hungarians do not distuingush among lager, dark, or the other types of beers. The most popular beers have around 5% of alcohol. Similar size to a bottle of beer, which is generally 0,5 liter as well.	500	5	20,0
D7_2HU / D8_2HU	Egy pohár sör	One glass of beer	beer	Glass of beer: 0,25-0,3 litre of beer. Similar size to a small bottle of beer (0,33 L)	300	5	12,0
D7_3HU / D8_3HU	Egy nagy pohár bor	A large glass of wine	wine		175	12	16,8
D7_4HU / D8_4HU	Egy kisebb pohár bor vagy	A small glass of wine or	wine/sparkling wine		100	12	9,6
D7_5HU / D8_5HU	Egy üveg bor	A bottle of wine			750	12	72,0
D7_6HU / D8_6HU	Egy pohár pálinka vagy más égetett szesz	A single measure of spirits or shot	spirits	Spirits as vodka, or whiskey, or the local, probably the most popular shot, pálinka, consumed in small glasses (200-500 mls)	50	40	16,0
D7_7HU / D8_7HU	Koktél	coctail	other		150	18,06	21,7
D7_8HU / D8_8HU	Előre összeállított alkohol	alcopop	alcopop	bottles	275	4	8,8

Question(s): E7, E8

46-os kártya

1 korsó vagy egy üveg sör (0,5 l)

vagy

1 pohár pálinka vagy más égetett szesz

1 pohár sör (0,3 l)

1 koktél

1 nagy pohár bor (kb. 1,75 dl)

OR

1 kisebb pohár bor vagy pezsgő (kb 1 dl)

1 üveg bor (7,5 dl)

1 előre összeállított alkohol tartalmú üdítőital (pl. smash, bacardi breezer, inside, nite)

Question(s): E10a

47a kártya

Példa 1

1 pohár rövidital (pl. pálinka vagy más égetett szesz) és 4 pohár sör

Példa 2

4 nagyobb pohár bor (kb. 7 dl)

Példa 3

2 pohár rövidital (Pl. pálinka vagy más égetett szesz) és 2 nagyobb pohár bor

Példa 4

3 pohár koktél

Példa 5

2 pohár rövidital (pl. pálinka) és 3 kisebb pohár bor

Példa 6

3 előre összeállított alkoholtartalmú üdítőital, 2 korsó sör

Question(s): E10b

47b-kártya

Példa 1

1 pohár rövidital (pl. pálinka) és 3 pohár sör

Példa 2

3 nagyobb pohár bor (kb 5,25 dl)

Példa 3

1 pohár pezsgő, és 2 koktél

Példa 4

1 pohár rövidital és 2 nagyobb pohár bor

Példa 5

3 pohár rövidital

Példa 6

1 koktél és 3 alkoholos üdítő

Iceland – Calculations of grams for variables ALCWKDY and ALCWKND

Variables	Name of drink (in majority language)	English rendition of drink	Type of drink(s): wine, beer, cider, spirits, other	Description (e.g., glass, can, bottle...) in English if possible	Quantity (mls)	Average %vol of drink in country	Average grams of alcohol
D7_1IS / D8_1IS	Stór, meðalsterkur (4,9% alk. eða minna) bjór eða síder	Large, medium strong (4.9% alc. or less) beer or cider (400-500ml)	Beer, cider	Glass or can	500	4,70 %	18,8
D7_2IS / D8_2IS	Lítil dós eða flaska af meðalsterkum (4,9% alk. eða minna) bjór eða síder	Small can or bottle of medium strong (4.9% alc. or less) beer or cider (330ml)	Beer, cider	Can or bottle	330	4,70 %	12,4
D7_3IS / D8_3IS	Stór, sterkur (5% alk. eða meira) bjór eða síder (400-500ml)	Large, strong (5% alc. or more) beer or cider (400-500ml)	Beer, cider	Glass or can	500	6,50 %	26,0
D7_4IS / D8_4IS	Lítil dós eða flaska af sterkum (5% alk. eða meira) bjór eða síder (330ml)	Small can or bottle of strong (5% alc. or more) beer or cider (330ml)	Beer, cider	Can or bottle	330	6,50 %	17,2
D7_5IS / D8_5IS	Stórt glas af léttvíni (250ml)	Large glass of wine (250ml)	Wine	Glass	250	13,40 %	26,8
D7_6IS / D8_6IS	Lítið glas af léttvíni eða glas af freyðivíni	Small glass of wine or a glass of sparkling wine	Wine	Glass	175	12,50 %	17,5
D7_7IS / D8_7IS	Flaska af léttvíni (750ml)	Bottle of wine (750ml)	Wine	Bottle	750	13,40 %	80,4
D7_8IS / D8_8IS	Glas af sérríi eða portvíni	Glass of sherry or port	Port/sherry	Glass	30	18,80 %	4,5
D7_9IS / D8_9IS	Einfaldur drykkur af sterku áfengi eða einfalt skot	Single drink of spirits or single shot	Spirits	Glass or shot glass	30	40 %	9,6
D7_10IS / D8_10IS	Tvöfaldur drykkur af sterku áfengi	Double drink of spirits alcohol	Spirits	Glass	60	40 %	19,2
D7_11IS / D8_11IS	Kokteill	Cocktail	Spirits	Cocktail glass	175	13 %	18,2
D7_12IS / D8_12IS	Áfengur gosdrykkur	Alcoholic soda drink	Alcopop	Can or bottle	330	4,50 %	11,9
D7_13IS / D8_13IS	(Hálf flaska af léttvíni)	(Half a bottle of wine)	Wine	Bottle	375	13,40 %	40,2
D7_14IS / D8_14IS	(Hálf flaska af sterku áfengi - 15 skot)	(Half a bottle of spirits - 15 shots)	Spirits	Bottle or shot glass	375	40 %	120,0

כרטיס 37

כוסית קטנה (צ'ייסר) של משקה חריף (ML30) (וודקה, ערק, וויסקי וכד')

1/3 ליטר בירה (ML330) (כוס, פחית או בקבוק)

כוסית גדולה ("שוט" מנת צ'ייסר כפולה) משקה חריף (ML60) (וודקה, ערק, וויסקי וכד')

1/2 ליטר בירה (ML500) (כוס, פחית או בקבוק)

מנת קוקטייל

כוס יין (ML175) רגיל (אדום או לבן) או מבעבע

כוס משקה מעורבב: מנת משקה חריף (ML60) (וודקה, ערק, וויסקי וכד') מעורבב עם משקה אנרגיה או משקה קל

כרטיס 38- לגברים

דוגמא 1

3 חצאי ליטר של בירה

דוגמא 2

7 כוסיות קטנות (צ'ייסרים) של משקה חריף

דוגמא 3

2 כוסיות קטנות (צ'ייסרים) של משקה חריף
ו- 2 חצאי ליטר של בירה

דוגמא 4

3 כוסיות קטנות (צ'ייסרים) ו- 2 כוסיות גדולות (שוטים) של משקה חריף (נקי או עם משקה אנרגיה)

דוגמא 5

2 כוסיות קטנות (שוטים) של משקה חריף (נקי או עם משקה אנרגיה) ו- 2 כוסות משקה מעורבב (משקה חריף מעורבב עם משקה אנרגיה או משקה קל)

דוגמא 6

3 ½ כוסות יין

כרטיס 39- לנשים

דוגמא 1

4 כוסות של 1/3 ליטר בירה

דוגמא 2

2 כוסות של משקה מעורבב (משקה חריף עם משקה קל או משקה אנרגיה) ו- כוס קטנה (צ'ייסר) של משקה חריף

דוגמא 3

2 ½ כוסות יין

דוגמא 4

2 כוסות קוקטייל וכוס יין מבעבע

דוגמא 5

2 כוסיות קטנות (צ'ייסרים) של משקה חריף ו- 2 כוסות של 1/3 ליטר של בירה

דוגמא 6

5 כוסיות קטנות (צ'ייסרים)

بطاقة 37

كأس صغير (تشيسر) من مشروب كحول (ML30) (فودكا، عرق، ويسكي وما شابه)

1/3 **لتر** بيرة (ML330) (كأس،صفيحة أو قنينة)

كأس كبير ("شوط" وجبة تشيسر مضاعفة) مشروب كحول (ML60) (فودكا، عرق، ويسكي وما شابه)

1/2 **لتر** بيرة (ML500) (كأس،صفيحة أو قنينة)

وجبة كوكتيل

كأس نبيذ (ML175) عادي (أحمر أو أبيض) أو شمبانيا

كأس مشروب مخلوط: وجبة مشروب كحول **(ML60)** (فودكا، عرق، ويسكي وما شابه) مخلوط مع مشروب حكول مع مشروب طاقة أو مشروب خفيف

بطاقة 38

مثال 1

3 **أنصاف لتر بيرة**

مثال 2

7 **كؤوس صغيرة (تشيسير) من مشروب كحول**

مثال 3

2 **كؤوس صغيرة (تشيسير) من مشروب كحول و – 2 أنصاف لتر بيرة**

مثال 4

3 **كؤوس صغيرة (تشيسير) و – 2 كؤوس كبيرة (شوط) من مشروب كحول**

مثال 5

2 **كؤوس مشروب مخلوط (** مشروب حكول مع مشروب خفيف أو مشروب طاقة) و – 3 كؤوس صغيرة (تشيسير) من مشروب كحول

مثال 6

3 ½ **كؤوس** نبيذ

European Social Survey

بطاقة 39

مثال 1

4 كؤوس من 1/3 لتر بيرة

مثال 2

2 كؤوس من المشروب المخلوط (مشروب حكول مع مشروب خفيف أو مشروب طاقة) وكأس صغيرة (تشيسر) من مشروب كحول

مثال 3

2 ½ كؤوس نبيذ

مثال 4

2 كؤوس كوكتيل وكأس شمبانيا

مثال 5

2 كؤوس صغيرة (تشيسير) مشروب كحول و – **2** كؤوس من 1/3 لتر بيرة

مثال 6

5 كؤوس صغيرة (تشيسير)

КАРТОЧКА 37

1/3 литра пива
(ML330)
(стакан, банка или бутылка)

Рюмка
(צ'ייסר)
крепкого алкогольного напитка
(ML30)
(водка, арак, виски и т.п.)

1/2 литра пива
(ML500)
(стакан, банка или бутылка)

Стопка
(שוט מנת צ'ייסר כפולה)
крепкого алкогольного напитка
(ML60)
(водка, арак, виски и т.п.)

Бокал вина
(ML175)
обычного (красного или белого) или игристого

Порция коктейля

Стакан смешанного напитка:
порция крепкого алкогольного напитка
(ML60)
(водка, арак, виски и т.п.)
смешанного с энергетическим напитком или другим безалкогольным напитком

КАРТОЧКА 38

Пример 1

3 пива по пол-литра

Пример 2

7 рюмок
крепкого алкогольного напитка

Пример 3

2 рюмки крепкого алкогольного напитка и 2 пива по пол-литра

Пример 4

3 рюмки и 2 стопки крепкого алкогольного напитка

Пример 5

2 стакана смешанного напитка (крепкого алкогольного напитка смешанного с безалкогольным напитком или энергетическим напитком) и 3 рюмки крепкого алкогольного напитка

Пример 6

3 $^{1}/_{2}$ бокала вина

КАРТОЧКА 39

Пример 1

4 пива по 1/3 литра

Пример 2

2 стакана смешанного напитка (крепкого алкогольного напитка смешанного с безалкогольным напитком или энергетическим напитком) и рюмка крепкого алкогольного напитка

Пример 3

2 $^{1}/_{2}$ бокала вина

Пример 4

2 бокала коктейля и бокал игристого вина

Пример 5

2 рюмки крепкого алкогольного напитка и 2 пива по 1/3 литра

Пример 6

5 рюмок крепкого алкогольного напитка

2 pavyzdys

5 vyno ar putojančio vyno taurės (100ml)

3 pavyzdys

4 kokteiliai su 40ml stipresnio (apie 40%) spiritinio gėrimo

4 pavyzdys

4 stipraus (apie 20%) vyno taurės (80ml) (vermuto ar pan.)

5 pavyzdys

4 taurelės (40ml) stipresnio (apie 40%) spiritinio gėrimo

6 pavyzdys

7 taurelės (40ml) silpnesnio (apie 20%) spiritinio gėrimo

Бутылка, бокал, банка (500 мл.) пива или сидра (около 5%)

Бутылка, бокал, банка (500 мл.) крепкого пива (крепче, чем 6,5%)

Маленькая бутылка, бокал, банка (330 мл.) пива или сидра (около 5%)

Маленькая бутылка, бокал, банка (330 мл.) крепкого пива (крепче, чем 6,5%)

Бокал (100 мл.) вина или игристого вина

Бутылка (750 мл.) вина или игристого вина

Бокал (80 мл.) крепкого (около 20%) вина (креплёного вина, вермута, портвейна, хереса или т. п.)

Бутылка (750 мл.) крепкого (около 20%) вина (креплёного вина, вермута, портвейна, хереса или т. п.)

Маленькая бутылка, бокал, банка (330 мл.) пива или сидра (около 5%)

Маленькая бутылка, бокал, банка (330 мл.) крепкого пива (крепче, чем 6,5%)

Бокал (100 мл.) вина или игристого вина

Бутылка (750 мл.) вина или игристого вина

Бокал (80 мл.) крепкого (около 20%) вина (креплёного вина, вермута, портвейна, хереса или т. п.)

Бутылка (750 мл.) крепкого (около 20%) вина (креплёного вина, вермута, портвейна, хереса или т. п.)

ВО ВСЕХ ПРИМЕРАХ КОЛИЧЕСТВО АЛКОГОЛЯ ПРИМЕРНО ОДИНАКОВОЕ

Пример 1

2 маленьких бокала (330 мл.) пива или сидра (около 5%) и 2 больших бокала (500 мл.) пива или сидра (около 5%)

Пример 2

1 маленький бокал (330 мл.) пива или сидра (около 5%) и 2 больших бокала (500 мл.) крепкого пива (крепче, чем 6,5%)

Пример 3

7 бокалов (100 мл.) вина или игристого вина

Пример 4

5 коктейлей с 40 мл. крепкого (около 40%) спиртного напитка

Пример 5

5 рюмок (40 мл.) крепкого (около 40%) спиртного напитка

Пример 6

4 рюмки (40 мл.) очень крепкого (50% или крепче) спиртного напитка

ВО ВСЕХ ПРИМЕРАХ КОЛИЧЕСТВО АЛКОГОЛЯ ПРИМЕРНО ОДИНАКОВОЕ

Пример 1

2 маленьких бокала (330 мл.) пива или сидра (около 5%) и 1 большой бокал (500 мл.) пива или сидра (около 5%)

Пример 2

5 бокалов (100 мл.) вина или игристого вина

Пример 3

4 коктейля с 40 мл. крепкого (около 40%) спиртного напитка

Пример 4

4 бокала (80 мл.) крепкого (около 20%) вина (вермута или т. п.)

Пример 5

4 рюмки (40 мл.) крепкого (около 40%) спиртного напитка

Пример 6

7 рюмок (40 мл.) слабого (около 20%) спиртного напитка

Pytania: **D7, D8**

PIWA

Piwo jasne pełne /ciemne/białe /kraftowe 0,33 litra

Piwo jasne pełne /ciemne/białe /kraftowe 0,5 litra

Piwo owocowe /smakowe /radler 0,5 litra

Piwo mocne 0,33 litra

Piwo mocne 0,5 litra

WINA

Kieliszek wina lub **wina musującego/prosecco /szampana 125 ml**

Butelka wina lub **wina musującego/prosecco /szampana 0,75 litra**

MOCNE ALKOHOLE

Kieliszek wódki smakowej/kolorowej 40/50 ml

Butelka wódki smakowej/kolorowej 0,2 litra

MOCNE ALKOHOLE

Butelka wódki smakowej/kolorowej 0,5 litra

Kieliszek wódki czystej 40/50 ml lub **szklaneczka whisky 40/50 ml**

Butelka wódki czystej 0,2 litra

Butelka wódki czystej 0,5 litra

DRINKI

Drink w butelce lub **w puszce 0,33 litra**

Drink na bazie 40/50 ml likieru, aperitifu

Drink na bazie 80/100 ml likieru, aperitifu

Drink na bazie 40/50 ml mocnego alkoholu (np. wódki albo whisky)

Drink na bazie 80/100 ml mocnego alkoholu (np. wódki albo whisky)

Karta 38

Pytanie **D10a**

Podobna zawartość czystego alkoholu jest na przykład w:

1 **3 piwa jasne pełne 0,5 l**

2 **5 kieliszków wina** albo **wina musującego/szampana 125 ml**

3 **5 kieliszków wódki czystej 40/50 ml**

4 **5 szklanek whisky 40/50 ml, itp.**

5 **5 drinków na bazie 40/50 ml alkoholu**

6 **3 kieliszki wódki czystej 40/50 ml + 1 piwo jasne pełne 0,5 l**

7 **2 piwa mocne 0,5 l + 1 piwo smakowe/owocowe 0,5 l**

8 **1 kieliszek wódki smakowej 40/50 ml + 4 kieliszki wina 125 ml**

Karta 39

Pytanie **D10b**

Podobna zawartość czystego alkoholu jest na przykład w:

1. **4 gotowe drinki alkoholowe 0,33 l**

2. **4 kieliszki wina 125 ml**

3. **4 kieliszki wina musującego**
albo **szampana 125 ml**

4. **2 gotowe drinki alkoholowe 0,33 l**
+ 2 drinki na bazie 40/50 ml alkoholu

5. **1 piwo owocowe/smakowe 0,5 l**
+ 3 kieliszki wódki czystej 40/50 ml

6. **1 piwo owocowe/smakowe 0,5 l**
+ 3 szklanki whisky 40/50 ml

7. **2 piwa jasne pełne 0,5 l**

8. **drink na bazie 40/50 ml alkoholu**
+ 3 kieliszki wódki smakowej 40/50 ml

KORT 37

En stor starköl eller stor starkcider (50 cl)

Ett glas vin (t.ex. vitt vin, rött vin, mouserande vin) (15 cl)

En stor folköl (50 cl)

Ett glas sprit eller en shot (t.ex. vodka, whiskey) (4 cl)

En liten starköl eller en liten starkcider (33 cl)

Ett dubbelt glas sprit (t.ex. vodka, whiskey) (8 cl)

Ett stort glas vin (t.ex. vitt vin, rött vin) (25 cl)

En drink med 4 cl sprit

Ett glas starkvin (t.ex. portvin, sherry.) (15 cl)

En flaska alkoläsk (33 cl)

Fråga(or): D10a

KORT 38

EXEMPEL 1

3 stora glas starköl eller starkcider (50cl)

EXEMPEL 2

1 stort glas vin (25cl) och två små glas vin (15cl)

EXEMPEL 3

2 stora glas starköl (50cl) eller starkcider och 1 stort glas vin (25cl)

EXEMPEL 4

5 flaskor starköl

eller starkcider (33 cl)

EXEMPEL 5

2 stora glas starköl (50cl) eller starkcider och 2 glas sprit (4cl)

EXEMPEL 6

4 flaskor alkoläsk (33cl) och 2 shots med sprit (4cl)

Fråga(or): D10b

KORT 39

EXEMPEL 1

1 starköl (50cl) och 2 flaskor starköl eller starkcider (33 cl)

EXEMPEL 2

2 stora glas vin (25cl)

EXEMPEL 3

2 glas mouserande vin och en starköl (50cl)

EXEMPEL 4

2 drinkar och 1 stort glas vin (25cl)

EXEMPEL 5

1 drink och 3 glas sprit (4cl)

EXEMPEL 6

2 flaskor alkoläsk (33cl) och 2 shots med sprit (4cl)

ESS Round 11: Alcohol Consumption Questions Adaptation Guidelines

Original guidelines were produced by Ana Villar (ESS HQ) for ESS Round 7.
Only minor updates were implemented for ESS Round 11 by Siobhan O'Muircheartaigh

1. Summary

Prior to Round 11 fieldwork, a consultation on the adaptation of the alcohol consumption questions will take place between National Coordinators (NCs), ESS ERIC HQ (HQ), GESIS and Sikt. The aim of this process is to provide guidance to NCs in adapting the showcards for the alcohol questions to the kinds of drinks available and common in their countries, and thus enhance equivalence of these measures across countries. We hope to encourage reflection (and discussion where necessary) on the drink categories and images that are used for these questions.

The four questions that measure alcohol consumption are:

- **D6 – alcfreq –** Frequency of alcohol consumption (adaptation permitted, see source questionnaire).
- **D7 – alcwkdy / D8 – alcwknd –** Quantity and type of drinks consumed the last time respondent drank on a weekday / weekend day (adaptation of showcard and response categories required but question stem to simply be translated).
- **D10a/D10b – alcbnge –** Frequency of binge drinking behaviour for men and women (only showcard adaptation required; question stem and categories to simply be translated).

These questions are part of an approach to measuring alcohol consumption cross-nationally that was newly designed for the module on 'Social inequalities in health and their determinants' in Round 7. This module is being repeated in Round 11 with minor changes; the items on alcohol consumption are unchanged. All questions are included in the ESS Round 11 source questionnaire released on 3 October 2022. The current document explains the need for and describes the process of adaptation, and the accompanying Excel file containing the consultation template ('ESS11 Alcohol Consumption Questions Adaptation - Consultation Template') should be used to document the adaptation and consultation process. Please read this document carefully, complete the accompanying Excel file and upload this to myESS (Documents > Country[1]> Questionnaire > Country-specific Folder), for the ESS HQ and Translation Team review.

NOTE FOR COUNTRIES THAT PARTICIPATED IN ESS ROUND 7:
Countries that participated in ESS Round 7 are not required to repeat the consultation process for alcohol consumption unless they identify a reason for major change. All teams that participated in Round 7 should review their Round 7 showcards and drinks-to-grams table, and raise any necessary changes with ESS ERIC HQ via the myESS forum. If no major changes are identified, then teams repeating the module from Round 7 are also not required to conduct additional cognitive interviews.

[1] Every country has an assigned country folder (i.e. Austria, Belgium...)

2. Background

The aim of the approach to alcohol measurement described in this document is to obtain measures that are as comparable across countries as possible and that are easy for respondents to answer. This 'Background' section describes the development of the measures for ESS Round 7. Please note that the measures have not changed for Round 11.

During the Round 7 source questionnaire design process, early question versions that were tested seemed ill-suited for cross-national comparisons. The first approach proposed by the Questionnaire Design Team (QDT) at Round 7 used existing questions that relied on defining alcohol units in the question and having respondents report their drinking in terms of those units (for example, a pint of beer in the UK corresponded to 2 units). Including the definition of an alcohol unit within the question itself posed several problems. First, existing definitions of standard alcohol units differ across countries in the number of grams of alcohol a unit contains. In countries where people are familiar with alcohol units, using an alternative definition could have been confusing, thus preventing us from being able to use a standard definition of 'a unit' across all countries. However, using country-specific units could also cause problems: in countries where units represent fewer grams of alcohol, respondents would need to admit to drinking a higher number of units than in countries where units have more grams of alcohol. One might expect that the larger the number used to describe the same amount of alcohol, the less willing respondents will be to admit drinking that amount. In addition, respondents in the Round 7 UK and Portugal pilot surveys seemed to have difficulty understanding early versions of the quantity and binge-drinking questions: calculating units from the showcards was cognitively challenging, requiring extensive help from the interviewers. Interviewers in the Round 7 pilot stated that respondents tended to answer the question about quantity by reporting the actual drinks they had (e.g., a glass of wine, a gin and tonic), and that respondents seemed to be answering the binge drinking question thinking about incorrect amounts of alcohol.

Existing alternative approaches that would overcome some of the limitations of the quantity questions relied on self-reports of 'drinks' without accounting for country differences in typical drink size or used more items than the module had space for; in addition, all existing binge-drinking questions we were able to find during Round 7 questionnaire development relied on the respondent making complicated calculations.

Therefore, a new set of items was developed for Round 7 to measure alcohol consumption using four items and trying to simplify the respondent's task as much as possible. These items try to match the way respondents think about alcohol consumption, avoid the use of alcohol units and ask instead about the actual drinks respondents have drunk on a given day. The approach calls for country-specific categories to define different quantities of alcohol and for images that illustrate alcoholic drinks as well as binge drinking amounts, with posterior harmonisation of responses into total grams of alcohol (see further details in sections 3, 4, and 5). A pre-Round 7 test of the questions in an omnibus survey suggested that they work well in the UK and a test adaptation into Spanish also proved successful in cognitive interviewing. These questions were successfully implemented in Round 7 and are now being repeated for Round 11.

3. Procedural steps for NCs

Adaptation of showcards 37, 38, and 39. All ESS Round 11 National Coordinators are asked to adapt showcards 37, 38, and 39, and the response categories for variables D7 and D8 (see guidelines for adaptation in section 4) and send these in a Word document to Siobhan O'Muircheartaigh at ESS ERIC HQ (ess@city.ac.uk) and Brita Dorer at GESIS

(ess_translate@gesis.org). We will then send you comments, queries and suggestions in a new version of these documents, which you are asked to accept, reject or revise as necessary. These steps will be repeated until a signed off result has been reached. **The showcards and response categories must be signed off before fieldwork starts; the decision-making process must be documented in the Excel consultation template.**

Drinks-to-grams conversion table: harmonisation of variables D7 and D8. Interviewers will record the number of each drink that respondents had the last time they drank alcohol; this information needs to be harmonised, and this will be done by providing a variable that summarises the number of alcohol grams contained in those drinks. For that purpose, NCs are asked to provide a 'drinks-to-grams' table (see UK example in Table 2 below). The drinks-to-grams table is part of the accompanying excel file and it will describe the average number of alcohol grams in each drink presented in the response options. The conversion of volumes of alcoholic drinks presented in the showcards to grams of alcohol is based on assumptions about the alcohol content of the type of drink (that is, the percentage of alcohol by volume). NCs are asked to include information on how the number of grams was calculated and any sources used to produce the drinks-to-grams table (suggestions on how to create this table can be found in section 5). **The drinks-to-grams table must be completed and signed off before fieldwork starts; the decision-making process must be documented in the Excel consultation template.**

Cognitive interviewing of alcohol consumption questions. **NCs are required to carry out at least four cognitive interviews as part of the adaptation process.** During pre-testing of the new source alcohol consumption questions, the Core Scientific Team (CST) conducted a few 'informal' cognitive interviews in the UK, and to test the adaptation process and its cross-national suitability, a trial adaptation of the showcards into Spanish was attempted including cognitive interviews[2]. It was found that some images were perceived as uncommon, and suggestions for changes in both the images and the names of the drinks were obtained in both countries. From this experience we learned that designing showcards that accurately reflect the terminology used by respondents can be a complex task, and that cognitive interviewing had been remarkably helpful in that process. Therefore, NCs are asked to carry out at least four cognitive interviews to ensure that the questions and showcards are understood in the intended way and that no drink images or names are perceived as strange or incoherent. The protocol used in the UK and Spain to conduct the cognitive interviews as well as the question set to administer before using cognitive probes are available in Appendix 1 and Appendix 2 respectively for NCs to use.

Submission of final set of questions, showcards, drinks-to-grams table. After the final questions, showcards and drinks-to-grams table have been agreed and signed off, all national teams will also be asked to upload the questionnaire items for D6 (alcfreq), D7 (alcwkdy), D8 (alcwknd), and D10a/D10b (alcbnge) (as they would appear in the questionnaire) via myESS (Documents > Country > Questionnaire > Country-specific Folder). Signed off showcards will remains available in the myESS Documents area.

Data preparation for deposit. Questions D7 and D8 are asked in a way that makes harmonisation possible by multiplying the country-specific variables by the number of grams per unit in that country as in Table 2. The CST will provide the syntax to compute such variables once questions and showcards have been signed off. Questions D6 and D10a/D10b will not require post-coding.

[2] Because this task had not been anticipated and no budget was available for it, CST members in Spain and UK conducted cognitive interviews with a convenience sample. Even though this is not the recommended way to conduct cognitive interviews, the CST found that it was better to obtain some information from respondents from the target population than rely exclusively on the expert reviews, quantitative data, and interviewer feedback. The cognitive interviewing process proved to be quite useful especially in adapting the cards to a new language.

4. Alcohol Consumption Questions – Adaptation Guidelines

D7 and D8 – CARD 37. Quantity of alcohol consumed last time the respondent drank

Country teams are required to adapt the showcards to include images and amounts of alcoholic drinks that are most commonly consumed in your country. Information about drinks commonly consumed can be obtained from official or trust-worthy reports available in your country, such as data on sales, health and safe driving guidelines, or market research studies (see also section 5).

Size of the drinks and the specific examples of the most common forms in which each of those drinks are consumed will vary across countries. The UK showcards have been included in the Round 11 source showcards and in Appendix 2 as examples. But if, for example, in your country it is common to refer to alcohol quantities in bottles of liquor (e.g., half a bottle of vodka), make sure that this kind of answer is available to respondents. We do not recommend exceeding 12 examples, as too much information on the card could result in excessive cognitive burden for the respondent.

Please note that in some countries it might be necessary to account for the different alcohol gradient sometimes found in similar types of drinks; in such cases, countries might choose to include not only different sizes but refer to different strengths of a drink. For example, strong beer could be recorded as a separate category from regular strength beer if it is commonly drank in your country.

D7 and D8 – Interviewer instructions and probes and additional response categories.

Some respondents may not provide an answer that matches the categories available to interviewers. When the answer is not available as a response option, interviewers should probe respondents to encourage them to select an answer from the available options. For that reason we have suggested additional probes for the UK questions (see Table 1) that can be adapted to the specific needs of each country.

Table 1. Interviewer probes when respondent gives a mismatch answer

Respondent says:	**Interviewer ask:**
A gin & tonic/2 vodkas/3 tequilas/etc.	Was that a single or double measure?
A pitcher/jug of beer	How many pints would you say that was?
A bottle of vodka/gin/whisky/other spirits	About how many shots of (...) would you say that was? **(I: Record number in 'single measures of spirits')**
A drink you haven't heard of or don't know how to classify	Which of the drinks in the card would be closest to what you drank?

It is also possible that 12 images may not be sufficient to cover all kinds of forms and quantities in which alcoholic drinks can be found. If specific *quantities* could be reported that respondents would find difficult to 'transform' into one of the response categories even after probing, the list of response categories could include additional response options for interviewers to record such answers, even though these are not included in the showcard. In the UK case, for example, the CST has suggested adding 'half a bottle of spirits' and 'half a bottle of wine' to the response category list, but not to the showcard, to help interviewers record these answers (see Table 2, page 5). However, we do not recommend doing this with more than 2 response categories, because the list would become too long and difficult to manage by the interviewer. Such additional categories must be included in the drinks-to-grams table.

Please note that in addition to the probes in the table, a general probe is included in the source questions that should be asked to everyone that mentions any drink: 'Any other drinks?' Therefore, there are a total of 3 interviewer instructions (to pause for respondents to consider the card, to enter the number of each drink mentioned by the respondent, and to use the probing table if needed) and one general probe.

For each type of drink, the interviewer should enter the number of drinks of that type as reported by the respondent. For drinks that are not mentioned, the cell should be left empty. If the respondent answers 'don't know', refuses to answer or says they never drink on those days, the interviewer will record this using the hidden codes as per the source questionnaire. Additional specifications about how to process answers for these questions will be provided in the ESS Round 11 Data Protocol, which will be made available from October 2022.

D10a and D10b – CARD 38/39. Frequency of binge drinking

Following existing health guidelines, we define binge drinking as drinking about 64 (males) or 48 (females) grams or more of alcohol in one single occasion[3]. Therefore, NCs should create six examples for males and six for females representing approximately 64 and 48 grams of alcohol respectively, combining the kinds of drinks that were shown in card 37. The examples reflect different numbers of drinks depending on the alcohol content shown in each image (for example, a woman would need to drink *two* large glasses of wine but *six* alcopops to be considered binge drinking).

We recommend that the country-specific examples show drinks and drink combinations that look typical to the country for each group (males and females). Drinks that are not included in card 37 should not be added to card 38/39.

5. Drinks-to-grams table – Calculation Guidelines

To create a drinks-to-grams table NCs should determine the average alcoholic volume in the type of drink represented in each category, as well as the average number of millilitres typically served. A number of different sources could be used to estimate these values. Existing country guidelines related to campaigns directed to improve health behaviour and/or to prevent driving under the influence (see http://www.drinkdriving.org/worldwide_drink_driving_limits.php#bac_limits) could contain useful information about the country's average alcohol content in certain drinks and serve as a good basis. Official national sales reports or market research reports are sometimes available for purchase. For example, one can find information on alcohol sales in the UK by looking at national statistics on alcohol duty (https://www.uktradeinfo.com/trade-data/), and data on various countries is available from the website of the Wine and Spirits Trade Association, together with useful links to other related websites (http://www.wsta.co.uk/resources/useful-links).

If no official numbers are available, NCs should <u>not</u> rely only on their own experience to estimate the average number of millilitres or alcohol grams in a drink; experts can be consulted, and establishments where alcohol is served can be visited to gather information. Sources and

[3] There is no consensus on how many grams of alcohol should constitute binge drinking. The WHO is slightly elusive about giving definitions for unit of alcohol and binge drinking. The WHO references found (see, for instance, http://www.who.int/substance_abuse/publications/global_alcohol_report/msbgsruprofiles.pdf) seem to define binge drinking ('heavy episodic drinking') as consuming 60 grams of alcohol or more in one single occasion (without distinction of male or female drinkers), which is approximately the amount in our male show card, and also approximately matches the UK guidelines for males (1 UK unit = 8 grams x 8 units = 64 grams).

procedures used to fill out the drinks-to-grams table should be documented in the accompanying consultation template (Excel file). For example, the UK guidelines published by the National Health System were used to create Table 2 (see Appendix 3): a UK alcohol unit has 8.1 grams of alcohol, and the guidelines suggest that one pint of regular beer contains two units, therefore the pints of beers in the UK have, on average, about 16 grams.

Table 2. Drinks-to-grams table for UK (D7/D8)

Variable name	List of drinks in response categories of questions D7 and D8	Average grams
D7_1GB/D8_1GB	Pint of normal strength beer, lager or cider	18
D7_2GB/D8_2GB	Can or bottle of normal strength beer, lager or cider (440ml)	14
D7_3GB/D8_3GB	Pint of strong (5% ABV or more) beer, lager or cider	24
D7_4GB/D8_4GB	Can or bottle of strong (5% ABV or more) beer, lager or cider (440ml)	18
D7_5GB/D8_5GB	Large glass of wine (250ml)	24
D7_6GB/D8_6GB	Small glass of wine (175ml) or glass of sparkling wine	17
D7_7GB/D8_7GB	Bottle of wine (750ml)	72
D7_8GB/D8_8GB	Glass of sherry/port	8
D7_9GB/D8_9GB	Single measure of spirits or shots	8
D7_10GB/D8_10GB	Double measure of spirits	16
D7_11GB/D8_11GB	Cocktail	16
D7_12GB/D8_12GB	Alcopop	11
D7_13GB/D8_13GB	*Half a bottle of wine*	36
D7_14GB/D8_14GB	*Half a bottle of spirits (15 single shots)*	120

Please note when calculating the average grams of alcohol in a drink that alcohol is less dense than water (1 millilitre weights less than 1 gram), so the formula to compute grams of alcohol is as follows:

8 x volume of alcohol in millilitres x alcohol by volume % / 1000.

For example, a bottle of 330 ml of a beer with an alcohol by volume of 4.8% would contain 8 x 330 x 4.8 / 1000 = 12.67 grams of alcohol.

6. Checklist for NCs and CST

1. NC to make a draft version of showcard 37 thinking about drinks (beer, wine, cider, spirits or others) most commonly consumed in your country. Make sure that you are not violating copyright law by using the images you select.
2. NC to research the grams of alcohol in each drink on the showcard and/or response categories available to interviewers and create a drinks-to-grams table in the consultation template (Excel file).
3. NC to design the male and female binge drinking showcards (38 and 39), including six examples in each showcard.
4. NC to organise translation of questions D6, D7, D8, D9, D10a, and D10b using the ESS TRAPD procedure.
5. NC to conduct at least 4 cognitive interviews to test the questions and showcards. (A cognitive interview protocol is available (in English) in Appendix 1).

6. NC to document decisions and decision-making process using the Excel file 'ESS11 Alcohol Consumption Questions Adaptation – Consultation Template'.
7. NC to upload all of the above (translated questions, showcards, and consultation template including drinks-to-grams table) to myESS for comment.
8. CST to send comments to NCs. Questions, showcards, and drinks-to-grams table to be revised by NCs as required until agreement is reached and documents are signed off.
9. CST to provide syntax to compute grams variables (see point 13).
10. CST to upload country-specific cards to myESS (after sign off), as Master Documents, for other countries to use for reference.
11. NC to print showcards 37, 38, and 39 on A4 and vertically, preferably in colour print.
12. Optional: The interviewer feedback form used in the last pre-test of the alcohol questions is available in Appendix 4. NCs are welcome to use this as part of their questionnaire pre-test for Round 11.
13. Post-data collection processing of the data: two harmonised variables will need to be created by the NC team, one for last time drinking during the week (D7 – alcwkdy: total grams of alcohol consumed last time respondent drank on a week day), one for last time drinking during the weekend (D8 – alcwknd: total grams of alcohol consumed last time respondent drank on a weekend). Further details regarding the format of these variables will be made available in the ESS Round 11 Data Protocol. The syntax for creating these variables will be provided by the CST.

Appendix 1 Cognitive Interview Protocol for Alcohol Consumption Questions

ESS ROUND 11: PROTOCOL FOR COGNITIVE INTERVIEWING OF ALCOHOL CONSUMPTION QUESTIONS

Cognitive protocol steps:

A. Select respondents that have *ever* had an alcoholic drink in their life.

B. Try to get permission to record the interview.

C. Administer the questions using the question set in Appendix 2 exactly as a survey interviewer would administer it, including all interviewer probes. Please write down any spontaneous comments or reactions to the questions while administering the question set (that is, before probing starts).

D. Explain the cognitive interview task and the rationale behind it: 'I would like you to share as much information and detail on how you answered the questions as possible. Sometimes my questions might be a bit hard to answer. We appreciate your effort and cooperation.'

E. Use the scripted probes as needed, and feel free to ask any other probes that you might find necessary during the interview. The script is organised by question, skipping question D6 (but feel free to include it) and showing a brief outline of the question at the top just as a reminder of the question topic. Start exploring each question by asking the general probe 'how did you come up with that answer' followed by the probes for that specific question. Probes 1 and 4 should generally be asked of every question.

Questions inside boxes are included just for reference.

D7	**CARD 37** Please think about the last time you were drinking alcohol on a Monday, a Tuesday, a Wednesday or a Thursday.

1. INITIAL SCRIPTED PROBE: How did you come up with that answer?
   - If necessary: Did you answer the question thinking about a typical weekday or where you thinking about a specific day?

AREAS TO EXPLORE:

2. WHAT TIME FRAME ARE RESPONDENTS THINKING ABOUT? Possible probes if the respondent has not volunteered the information:
   - **Please describe the day you were thinking about when answering this question – give as much detail as you can.**
   - When did the drinking take place (date and time)?
   - Where were you (home, restaurant, bar, pub, friend's home, work, special event...)?
   - Did you have any drinks right before/after that? (This probe tries to identify whether they are forgetting to include any drinks they should be including).

3. HOW ARE RESPONDENTS CONVERTING THEIR ACTUAL ALCOHOL CONSUMPTION INTO THE RESPONSE OPTIONS WE ARE GIVING THEM? Possible probes if the respondent has not volunteered the information:
   - **You said you had (insert drinks), can you tell me more about the drinks you had (what type of spirits/what brand of beer/...)?**
   - Did you have any problems making these drinks fit into the categories on the card?
   - Were there any drinks you had to leave out because they did not fit into the categories on the card?

4. FINAL SCRIPTED PROBE**: Were there any other parts of the question that were not clear or that you found especially difficult?**

D8	**STILL CARD 37** Now please think about the last time you were drinking alcohol on a Friday, a Saturday or a Sunday.

1. INITIAL SCRIPTED PROBE**: How did you come up with that answer?**
- If necessary: Did you answer the question initially thinking about a typical weekend or where you thinking about a specific day?

AREAS TO EXPLORE:

2. WHAT TIME FRAME ARE RESPONDENTS THINKING ABOUT? Possible probes if the respondent has not volunteered the information:
   - **Please describe the day you were thinking about when answering this question – give as much detail as you can.**
   - When did the drinking take place (date and time)?
   - Where were you (home, restaurant, bar, pub, friend's home, work, special event...)?
   - Did you have any drinks right before/after that? (This probe tries to identify whether they are forgetting to include any drinks they should be including).

3. HOW ARE RESPONDENTS CONVERTING THEIR ACTUAL ALCOHOL CONSUMPTION INTO THE RESPONSE OPTIONS WE ARE GIVING THEM? Possible probes if the respondent has not volunteered the information:
   - **You said you had (insert drinks), can you tell me more about the drinks you had (what type of spirits/what brand of beer/...)?**
   - Did you have any problems making these drinks fit into the categories on the card?
   - Were there any drinks you had to leave out because they did not fit into the categories on the card?

4. FINAL SCRIPTED PROBE**: Were there any other parts of the question that were not clear or that you found especially difficult?**

D10a/D10b

CARD 38/39 This card shows six different examples of how much alcohol a person might drink on a single occasion.

In the last 12 months, how often have you drunk this amount of alcohol or more on a single occasion? Was it...**READ OUT...** ...daily or almost daily, weekly, monthly, less than monthly or, never?

1. INITIAL SCRIPTED PROBE**: How did you come up with that answer?**

AREAS TO EXPLORE:

2. ARE THE EXAMPLES HELPING THE RESPONDENT COME UP WITH AN ANSWER? Possible probes if the respondent has not volunteered the information:
   - **Which of the examples on the card did you use when thinking about your answer? Why did you choose that one?**
   - **Did you find any of the pictures confusing?**
     If yes - Did that affect how you came up with your answer?
   - When you were answering the question did you feel that all the pictures showed similar amounts?

3. WHAT ARE THE KINDS OF SITUATIONS THAT RESPONDENTS ARE THINKING ABOUT WITH RESPECT TO THIS QUESTION? Possible probes if the respondent has not volunteered the information:
   - **You said that in the last 12 months, you have drunk (insert frequency), can you tell me more about how you calculated that answer?**
   - How far back did you think about when coming up with an answer (which month and year)?
   - Were you thinking of any specific instances when coming up with an answer? Please describe these instances.

4. FINAL SCRIPTED PROBE**: Were there any parts of the question that were not clear or especially difficult?**

D6-D10 ADDITIONAL GENERAL PROBES

1. **We are planning to ask these questions in a survey of the general population. Do you think that people will find these questions difficult to answer? Why?**
2. **Do you think these questions might be sensitive for some people? Why?**
3. **Do you have any additional comments about these questions?**

Appendix 2 Source Alcohol Consumption Questions and Suggested UK Showcards

D6 **CARD 36** In the last 12 months, that is since [**MONTH, YEAR**], how often have you had a drink containing alcohol? This could be wine, beer, cider, spirits or other drinks containing alcohol. Please choose an answer from this card.

PROGRAMMING NOTE: The [MONTH, YEAR] text should appear as the month and year 12 months before the interview. E.g. if the interview is being carried out in March 2023, the text should refer to 'since March 2022'.

Every day	01	**ASK D7**
Several times a week	02	
Once a week	03	
2-3 times a month	04	
Once a month	05	
Less than once a month	06	
Never	07	**GO TO D11**
(Refusal)	77	**ASK D7**
(Don't know)	88	

ASK IF CODE 01, 02, 03, 04, 05, 06, 77 OR 88 AT D6

D7 **CARD 37** Please think about the last time you were drinking alcohol on a Monday, a Tuesday, a Wednesday or a Thursday.
INTERVIEWER PAUSE TO ALLOW RESPONDENT TO CONSIDER THE SHOWCARD.
How many of each of the following drinks did you have on that day?
Use this card to guide your answer.

INTERVIEWER PROBE: any other drinks?
INTERVIEWER: If respondent gives an answer that is not on the card, please refer to the box below:

Respondent says:	**Interviewer ask:**
A gin & tonic/2 vodkas/3 tequilas/etc.	Was that a single or double measure?
A pitcher/jug of beer	How many pints would you say that was?
A bottle of vodka/gin/whisky/other spirits	About how many shots of (...) would you say that was? **(I: Record number in 'single measures of spirits')**
A drink you haven't heard of or don't know how to classify	Which of the drinks in the card would be closest to what you drank?

INTERVIEWER RECORD NUMBER OF EACH TYPE OF DRINK:

☐☐	Pints of normal strength beer, lager or cider
☐☐	Cans or bottle of normal strength beer, lager or cider (440ml)
☐☐	Pints of strong (5% ABV or more) beer, lager or cider
☐☐	Cans or bottle of strong (5% ABV or more) beer, lager or cider (440ml)
☐☐	Large glasses of wine (250ml)
☐☐	Small glasses of wine (175ml) or glasses of sparkling wine
☐☐	Bottles of wine (750ml)
☐☐	Glasses of sherry/port
☐☐	Single measures of spirits or shots
☐☐	Double measures of spirits
☐☐	Cocktails
☐☐	Alcopops
☐☐	(Half a bottle of wine)
☐☐	(Half a bottle of spirits – 15 single shots)
555	(Never drink alcohol Monday to Thursday)
777	(Refusal)
888	(Don't know)

D8 **STILL CARD 37** Now please think about the last time you were drinking alcohol on a Friday, a Saturday or a Sunday.
INTERVIEWER PAUSE TO ALLOW RESPONDENT TO CONSIDER THE SHOWCARD.
How many of each of the following drinks did you have on that day?

INTERVIEWER PROBE: any other drinks?
INTERVIEWER: If respondent gives an answer that is not on the card, please refer to the box below:

Question(s): D10a

CARD 38

EXAMPLE 1

3 AND A HALF PINTS OF **NORMAL STRENGTH** BEER

EXAMPLE 2

4 SMALL GLASSES OF WINE

EXAMPLE 3

1 AND A HALF PINTS OF **NORMAL STRENGTH** BEER & 2 SMALL GLASSES OF WINE

EXAMPLE 4

1 DOUBLE MEASURE OF SPIRITS & 2 LARGE GLASSES OF WINE

EXAMPLE 5

8 SINGLE MEASURES OF SPIRITS

EXAMPLE 6

2 ALCOPOPS, A PINT OF **NORMAL STRENGTH** BEER, & 3 SINGLE SHOTS

Question(s): D10b

CARD 39

EXAMPLE 1

2 PINTS OF **NORMAL STRENGTH** BEER AND A SINGLE MEASURE OF SPIRITS

EXAMPLE 2

2 LARGE GLASSES OF WINE

EXAMPLE 3

3 GLASSES OF SPARKLING WINE

EXAMPLE 4

2 DOUBLE MEASURES OF SPIRITS & 1 SMALL GLASS OF WINE

EXAMPLE 5

3 SINGLE MEASURES OF SPIRITS & 3 SINGLE SHOTS

EXAMPLE 6

2 ALCOPOPS & 3 SINGLE SHOTS

Appendix 3 UK Official National Health System Definition of Alcohol Unit

How much is one unit?

One unit is equivalent to 10ml or 8g of pure alcohol. There are roughly:

- 2.1 units in a standard glass (175ml) of average-strength wine (12%)
- 3 units in a large glass (250ml) of average-strength wine (12%)
- 2 units in a pint of low-strength lager, beer or cider (3.6%)
- 3 units in a pint of higher-strength lager, beer or cider (5.2%)
- 1 unit in a single measure of spirits (25ml)

Appendix 4 Interviewer Feedback Form: Questions D6 to D10b

The first set of questions below is about administering questions D6-D8 and the accompanying showcards. These questions asked about alcohol consumption. Please tick the appropriate answer at each question and return the form at the end of your assignment.

1. How often did you have to re-read question D6 to respondents?

	✓
Almost always	☐
Most of the time	☐
About half the time	☐
Once in a while	☐
Never	☐

2. How often did you have to re-read question D7 and D8 to respondents?

	✓
Almost always	☐
Most of the time	☐
About half the time	☐
Once in a while	☐
Never	☐

3. How often were respondents able to provide an answer to D7 and D8 in the expected format (e.g., 'two single measure spirits and a large glass of wine') at the first attempt?

	✓
Almost always	☐
Most of the time	☐
About half the time	☐
Once in a while	☐
Never	☐

4. How often did you have to use the probing table in D7 and D8 to help respondents arrive at an answer in the expected format?

	✓
Almost always	☐
Most of the time	☐
About half the time	☐
Once in a while	☐
Never	☐

5. How often did you have to explain to respondents how to use the card or how to answer question D7 and D8?

	✓
Almost always	☐
Most of the time	☐
About half the time	☐
Once in a while	☐
Never	☐

6. Overall, how difficult were questions D7 and D8 to administer?

	✓
Extremely difficult	☐
Very difficult	☐
Quite difficult	☐
Somewhat difficult	☐
Not difficult at all	☐

7. Please enter any other comments or suggestions you have about the administration of question D7/D8 (please let us know if you think one worked better than the other).

Now we have a few questions about administering questions D10a/D10b and respective cards. Question D10a/D10b asked about drinking certain amount of alcohol on a single occasion, and the cards showed several examples of different amounts of alcohol a person might drink (e.g., XXXXX of beer). D10a is to be asked of men and D10b of women.

8. How often did you have to re-read question D10a/D10b to respondents?

	✓
Almost always	☐
Most of the time	☐
About half the time	☐
Once in a while	☐
Never	☐

9. How often were respondents able to provide an answer to D10a/D10b in the expected format (e.g., 'weekly') at the first attempt?

	✓
Almost always	☐
Most of the time	☐
About half the time	☐
Once in a while	☐
Never	☐

10. How often did you have to explain to respondents how to use the card for D10a/D10b or how to answer the question?

	✓
Almost always	☐
Most of the time	☐
About half the time	☐
Once in a while	☐
Never	☐

11. Do you think that respondents generally understood how to use the card to answer question D10a/D10b?

	✓
Yes	☐
No	☐

12. Overall, how difficult was question D10a/D10b to administer?

	✓
Extremely difficult	☐
Very difficult	☐
Quite difficult	☐
Somewhat difficult	☐
Not difficult at all	☐

13. Please enter any other comments or suggestions you have about the administration of question D10a/D10b.

Please enter your interviewer number below before returning your form. Thank you for your help with this project.
